## (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Bilcare GCS, Inc. (the "Company") is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

#### NATURE OF OPERATIONS

Bilcare GCS, Inc. offers a full spectrum of services across the supply chain, from pre-formulation to global logistics and distribution, comparator procurement, depot management, clinical packaging and labeling. Regulatory and analytical services are some of the Company's critical areas of expertise. Bilcare GCS, Inc. partners with over 25 strategic GMP Compliant Depots across the globe. Bilcare GCS, Inc. implements some of the best storage and distribution practices in the Clinical Supply industry. The Company is a corporation that was organized and began business in Dover, Delaware on May 26, 2015.

#### **USE OF ESTIMATES**

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the recorded amounts of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

#### CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. There were no cash equivalents as of March 31, 2022 and 2021.

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

#### FOREIGN CURRENCY TRANSLATION

The functional currency of the Company is in U.S. dollars. Monetary assets and liabilities are all denominated in U.S. dollars. Expenses are translated at the exchange rates in effect at the date of the transaction. For the year ended March 31, 2022 the Company had realized translation gains of \$ 421 and losses of \$ 8,587. For the year ended March 31, 2021 the Company had realized translation gains of \$ 198 and losses of \$ 2,376. These translation gains and losses have been included in cost of goods sold.

#### ACCOUNTS RECEIVABLE

The balance in accounts receivable is considered by management to be fully collectible, and accordingly, no allowance for doubtful accounts is required. If in the future, management determines that amounts may be uncollectible, an allowance will be established and operations will be charged when that determination is made. Bad debt expense totaled \$ -0- and \$ 2,113 for the years ended March 31, 2022 and 2021, respectively. Further, during the year ended March 31, 2021, \$ 59,000 of related party advances was written off (See Note (3)).

# (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### ADVANCES TO VENDORS

The Company advances funds to certain vendors in the normal course of business for prepayment of goods. As of March 31, 2022 and 2021 the Company had advanced funds of \$ 484,235 and \$ 475,861, respectively. Management has established an allowance for advances to vendors in the amount of \$ 468,050 and \$ 468,050 as of March 31, 2022 and 2021, respectively (See Note (6)).

#### INVENTORY

The Company's inventories are recorded at the lower of cost or net realizable value. There were no inventories on hand at March 31, 2022 and 2021.

#### **INCOME TAXES**

The provision for income taxes includes the tax effects of transactions reported in the financial statements and consists of taxes currently due or refundable plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. These differences related primarily to operating loss tax benefits. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

#### REVENUE RECOGNITION

Sales are recognized when revenue is realized or becomes realizable and has been earned. In general, revenue is recognized when the earnings process is complete, which is upon shipment of products.

The Company's management has reviewed the requirements of FASB Accounting Standards Update (ASU) 2014-09 "Revenue from Contracts with Customers" (Topic 606), and, following the five-step approach delineated in ASC 606, has determined that no adjustments are required for adoption of the new Revenue Recognition Standard. By recognizing revenues from sales when goods have been delivered to, or when services have been completed and accepted by the customer, the Company is recognizing revenue when it satisfies its performance obligation by transferring promised goods or services to a customer.

# (2) UNCERTAIN TAX POSITIONS

Management has determined that the Company does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Company's tax returns will not be challenged by the taxing authorities and that the Company or its shareholders will not be subject to additional tax, penalties, and interest as result of such a challenge. Generally, the Company's tax returns remain open for three years for the federal income tax examination and various years for state taxing authorities.

#### (3) RELATED PARTY TRANSACTIONS

During the years ended March 31, 2022 and 2021, the Company was owed \$ -0- and \$ 200, respectively, from a related party, Bilcare Mauritius Limited.

# (3) RELATED PARTY TRANSACTIONS (CONTINUED)

Bilcare Limited, the parent company of Bilcare Technologies Singapore Pte. Ltd., made a strategic decision to cease operations and close Bilcare Technologies Singapore Pte. Ltd. during the year ended March 31, 2021. Therefore, the amount loaned of \$59,000 will not be repaid and has been written off as of March 31, 2021.

During the years ended March 31, 2022 and 2021, the Company incurred sales incentive expense of \$ 24,497 and \$ 11,463, respectively, to Bilcare Limited. These amounts are based on business performance and are paid to the sales staff from Bilcare Limited.

# (6) CONTINGENCIES

During the year ended March 31, 2017, the Company advanced funds to Spring Bio Solutions in the amount of \$ 468,050. The Company is currently in litigation with Spring Bio Solutions due to the failure of Spring Bio Solutions to deliver the goods as promised. It is management's belief, after consulting with their attorney, that the balance due may not be collectible. Therefore, management has established an allowance for the full amount as of March 31, 2021.

As of March 31, 2022 the Company is still in litigation with Spring Bio Solutions. The COVID-19 pandemic has made it difficult for a resolution to be reached in court.

## (7) COMPARATIVE FIGURES

Certain 2021 figures have been reclassified to conform with the 2022 presentation. These changes had no effect on prior year results of operations, financial position or cash flows.

## (8) SUBSEQUENT EVENTS

Management considered and evaluated the nature of any subsequent events through April 19, 2022, which is the date that the financial statements were available to be issued, and believes there is nothing of significance to report.
